THE ST. PAUL A SUCCESS.

The New American Liner Meets All Expectations.

FAST TIME IN A STIFF BREEZE.

The Speedy Vessel Travels at a Rate Exceeding Twenty-three Miles an Hour, and It Is Believed She Will Yet Equal the St. Louis' Time.

GLOUCESTER, Mass., Oct. 5.—The big ocean steamship St. Paul, built by the Cramps, of Philadelphia, as a sister ship to the St Louis, for the International Navigation company's line, made an average speed of 20.5 knots an hour in her official trial trip of almost 8s knots over the government course off this coast yesterday, and scored another success for American shipbuilders. In every respect the trial was a most satisfactory one. The vessel's machinery worked perfectly, there was no foaming of the boilers, as on the preliminary run last Wednesday, and the vessel cut through the waves gracefully and easily, with a noticeable lack of vibration. Her builders and the officials of the International Navigation company are well satisfied with the result of the trial, and are confident that after she has been docked and cleaned a little work will greatly add to her speed, and when the stiffness of her machinery has worn away she will equal the St. Louis' record of 22.3 knots an hour.

Yesterday's trial was under the supervision of Commander R. M. Bradford, U. S. N., Lieutenant Commander Seaton S. Schroeder, Lieutenant J. N. T. Hatch and Lieutenant Mulligan, of the government trial board, who took careful notes of the vessel's performance to determine her eligibility as a United States mail steamship and as an auxilliary cruiser of the United States navy in the event of war. She met fully the speed requirement of 20 knots an hour, proved herself steady and powerful and in every respect met the demands of the government.

Assistant Secretary of State Adee Edwin S. Cramp, as representative of the builders, and President Clement A. Griscom, representing the International Navigation company, closely watched the trial of the ship, and expressed themselves as greatly pleased with the result. The St. Paul left her anchorage off Boston light at 6 o'clock yesterday morning, with her boilers thoroughly cleaned and filled with fresh water, her machinery in perfect order and 400 tons of coal in her bunkers.

Only a light mist overhung the ocean, but a few clouds flecked the sky, and the stiff breeze which was blowing from the northwest did not seriously disturb the surface of the sea, although it retarded the speed of the vessel considerably. The big black liner made good time from the light down to Cape Ann. She warmed up to her work rapidly, and at 8:30 she was headed for the starting line. She crossed it at 8:59 and pointed down the course to Cape Porpoise, Me.

Her twin screw propellers were then skipping her through the water at the rate of almost 20 knots, with a 10 knot breeze blowing dead against her. Every piece of machinery assisting her in her propulsion was working perfectly, the boilers were performing their duty faithfully, and the big black liner sped to the eastward like a frightened sea gull. Her vibration was noticeably slight, the "bone" at her bows was small as her prow cleaved through the waves, but the milk white wake astern churned up by her rapidly revolving propellers and the whirl of the patent log which dragged behind gave ample evidence of her speed.

The second mark boat on the course, anchored off Boon Island, 32 knots from the start, was passed at 10:22 at a speed of about 20 knots, and soon afterwards the tugboat, anchored at the finish line, off Cape Porpoise, was sighted. This mark, which ended the first half of the trial, was passed at 11:01, 2 hours and 11 minutes after the start, making the average speed for the 43.51 knots 21.11 knots an hour. Less than 15 minutes were occupied in making the turn, and at 11:15 a. m. the big black steamer resumed the line and began her race back.

The wind, which had risen somewhat, was with her now, and her speed increased slightly as she reached the Boon Island mark, which was passed at 11:55. The tug which was anchored here got under way as soon as the St. Paul passed, and with the smoke pouring in dense volumes from her stack followed the big ship at her top speed, but she was soon lost to sight. The stake boat off Thatcher's Island indicating the finish was in view soon after noon, and as she neared it the ocean racer sped toward the line like a race horse tearing down the homestretch.

She crossed the line and terminated the trial at 1:22 p. m. She had made the run westward on the last half of the trial in 2 hours and 7 minutes, at an average speed of 20.8 knots an hour, making her average for the entire trial 20.5, or more than 23 miles an hour. The average revolutions of the vessel's screw during the run were 80.3 going east and 80 on the return westward. The boilers steamed easily, at no time giving trouble, and the indicators showed an average pressure of 190 pounds.

All attending conditions being considered, the builders and owners of the vessel were well satisfied with the work of the ship, and believe that she will prove one of the fastest and best in the world.

The St. Paul stopped a few moments off Gloucester immediately after the trial, and then proceeded to New York.

A Tennessee Sensation.

CHATTANOOGA, Oct. 5.—Mrs. Delia Tegue, daughter of W. A. Maloney, a wealthy stock raiser of Midway, Tenn., died at Dr. Hatcher's sanitarium at Tate Springs from the effects of abortion. Dr. Hatcher is missing, and $500 reward is offered for his arrest. A prominent planter named Richard Hughes, of Moshiem, Tenn., is implicated. He is also missing. The interested parties are prominent in social and religious circles.

A Negro Convict Lynched.

CHATTANOOGA, Oct. 5.—Neal Smith, a convict who recently outraged a young white lady at Cole City, Ga., after beating her into insensibility, was taken last night from the prison camps by a mob from Tennessee and chained and shot to death.

Embezzler Tait to Stand Trial.

NEW YORK, Oct. 5.—John R. Tait, who defrauded the Chemical National bank, of which he was paying teller, out of $17,000, was yesterday arraigned before United States Commissioner Shields and released on $3,000 bail. Tait has spent seven months in the government insane asylum at Washington, on the certificate of several specialists that he was of unsound mind, but a few days ago the asylum authorities declared that his reason was unimpaired, so he was brought back to stand trial.

The Taylor Brothers Secure a Stay.

CARROLLTON, Mo., Oct. 5.—Yesterday was the date set for the execution of the Taylor brothers, for the murder of the Meeks family, but Judge Rucker granted a stay of execution pending an appeal to the supreme court. The appeal will not be heard before next April.

In Favor of Women Delegates.

RACINE, Wis., Oct. 5.—The Wisconsin conference of the Methodist Episcopal church, in session here, voted on the question of the admission of women as delegates to the general conference. The vote resulted: For the women, 109; against, 1; neutral, 25.

THE WILY HEATHEN CHINEE.

Using Atlanta's Exposition as a Means of Evading the Law.

ATLANTA, Oct. 5.—Government Immigration Inspector Thomas J. Scharf, sent here to watch the colony of Chinese men, women and children brought to the exposition by Kee Oyang and Leon Lane, has sent to the secretary of the treasury a preliminary report which is highly sensational. He scores the inspector at Ogdensburg, N. Y., for negligence and carelessness in the admission of the Chinese to the United States, and suggests that the United States consul at Hong Kong be called upon to show the manner in which he took the descriptions of the Chinamen when they left that place for America.

The report states that there are 135 men in the Chinese village here who are doing absolutely nothing, and who evidently bought their way into America for the purpose of remaining here. He stated that the whole crowd intend to evade the officers and remain in this country. The women, he suggests, are to be sold. The whole scheme, he declares, was originated by wealthy Chinamen who do not live in America, and that Kee Oyang and Leon Lane are merely their agents.

Inspector Scharf is pushing his investigation, and hopes to break up the plans which he is confident the promoters of the Chinese village here intend to carry out.

Carrying Water from Hollidaysburg.

HOLLIDAYSBURG, Pa., Oct. 5.—General Superintendent F. L. Sheppard, of the Pennsylvania Railroad company, yesterday petitioned the Hollidaysburg councils for a water supply for the car shops, locomotive works and the 5,000 employes of the company. At Altoona, where the water famine has now assumed the most serious aspects, the probable closing down of those works during the drought necessitated the petition. The councils decided to send eleven train loads, containing 400,000 gallons of water, every day to Altoona. Hollidaysburg is now the only town in Central Pennsylvania where a superabundant water supply exists.

Death from Witnessing a Fatality.

OTTAWA, Ills., Oct. 5.—Corridons Phelps, for many years the leading stock buyer and shipper of this city, and Henry J. Rigden, a painter, were struck by a passenger train on the Chicago, Rock Island and Pacific railroad here and instantly killed. John Heiser, who lived close to the scene of the accident, was sick and sat at his window overlooking the track. He was found by his wife a few minutes later, death evidently having been produced by the shock of witnessing the accident.

A Two Days' Rain Needed.

SHAMOKIN, Pa., Oct. 5.—Water company officials report that Shamokin, Mt. Carmel and the surrounding territory will be wholly without a water supply if the drought lasts three days longer, and add that nothing short of a two days' rain will relieve this serious condition of affairs. The water tanks located along the Reading railroad's main line between Locust Summit and this place ran dry last evening, and will seriously interfere with the running of trains.

Arizona Wants Statehood.

WASHINGTON, Oct. 5.—Governor Hughes, of Arizona, has made his annual report to the secretary of the interior. As to the political situation and statehood the governor says: "I believe that the territory is safely Democratic when but the two standard political parties are in the field. The people of the territory are a unit for statehood. We have earned this right by the conquest and civilization of this region, and have every condition necessary for self government."

Sandbagged and Robbed.

TORONTO, Ont., Oct. 5.—At Myrtle, a small town a few miles from here, a desperate robbery was committed in the Canadian Pacific railway station. Unknown robbers sandbagged the night operator, rendering him insensible. The safe was then blown open and $2,500 of the Dominion Express company's funds stolen. The operator was so badly injured that he is unable to give a coherent account of the affair.

A Woman's Confession of Matricide.

SUMMERFIELD, Kan., Oct. 5.—Julia Finnerty, aged 30, has broken down under close examination and has confessed that she murdered her mother, Mrs Mary Finnerty, aged 67. She committed the crime, she said, because of her objection to the suit of James McGeeney, a young farmer, for her mother's hand. The crime was committed with a hatchet while the victim was asleep in bed.

Alleged Barn Burner Captured.

NEW BRUNSWICK, N. J., Oct. 5.—Josephus Dengman, 65 years old, who works on Lederer's farm, near Weston's Mills, has been arrested, charged with incendiarism. Detective Oliver has been hunting for the mysterious barn burner who for the past two months has been burning barns in the vicinity, and declares he has convicting evidence against Dengman.

Three Months' Business Failures.

NEW YORK, Oct. 5.—R. G. Dun & Co.'s weekly review of trade says: Commercial failures in the third quarter of 1895 were 2,792, with liabilities of $32,167,179, averaging $11,521 per firm, against $10,028 last year, about 15 per cent. more. The analysis indicates a condition approaching, but not yet reaching, one of general prosperity.

William Henry Released from Custody.

BROOKLYN, Oct. 5.—William Starr Henry, who was charged with the murder of his father, Charles W. Henry, who was found dead in his home, No. 95 South Portland avenue, on June 14 last, was yesterday discharged from custody in the court of sessions of this city.

Ended a Spree with Wife Murder.

SPRINGFIELD, Ills., Oct. 5.—William C. Henry ended a spree of six weeks by killing his wife in the presence of Louise, their 13 year-old daughter. He then fled, and has not yet been captured. He was recently an engineer on the Wabash railroad.

THE BIG PRIZE FIGHT.

The New Fighting Ground Has Not Yet Been Selected.

FITZSIMMONS STEADILY TRAINING

Citizens of Ardmore, I. T., Working to Secure the Contest for Their Town. New Orleans Sports Think Corbett Wants to Avoid a Meeting.

ARDMORE, I. T., Oct. 5.—Enthusiasm over the probable coming of the Corbett-Fitzsimmons fight was intensified in Ardmore today. Some of the best legal talent here concur in the opinion that there is no law on the statute books to prevent the fight coming off in the territory, and on the strength of this active steps to have it brought here are being made.

An enthusiastic mass meeting was held in the offices of United States Commissioner Gibbons, and as a result Judge Moran, late United States commissioner under Judge Stewart, was sent to the Athletic club to represent the conditions under which the contest can be held here. Representatives of the Santa Fe railroad arrived at Ardmore this morning and left immediately for Tishomingo, where the Chickasaw council is now in session. They intend, it is said, to endeavor to have the council convert Corbett and Fitzsimmons into members of the tribe, in order to escape the jurisdiction of the United States court in the Indian Territory and obviate the possible legal objection to the contest.

A Big Thing for California.

SAN FRANCISCO, Oct. 5.—W. R. Vice, ex-vice president of the old California Athletic club, believes that if the Corbett-Fitzsimmons fight would be brought off in California it would mean over $1,000,000 profit to the state. "Dad" White, one of San Francisco's prominent sporting men, had a talk with Mr. Vice about raising a purse for the fight to come off in California. The sporting men interested in it are very secret about their plans just at present, and it will be some days before anything definite is known. Manager W. J. Kennedy said today that he would give Corbett and Fitzsimmons a chance to box a limited engagement before the Olympic club. The Australian, however, would object to this, as Corbett is too popular at the Olympic.

Is Corbett Trying to Avoid a Fight?

NEW ORLEANS, Oct. 5.—The opinion is expressed by certain sporting men that Corbett is building up a foundation to get out of his fight if possible. It was noticed that to every newspaper man who interviewed him that Corbett harped on only one subject, and that is the many strings that are attached to Fitzsimmons' stake in Phil Dwyer's hands. Corbett very bluntly said today that Fitz would have to have $10,000 up in the stakeholder's hands without an attachment tied to it or he would not fight. Local sporting men are of the opinion that this provision of Corbett's will occasion considerable trouble before Oct. 31. The general feeling in New Orleans is that the fight will never take place.

Fitzsimmons Still in Training.

COLLIN'S CHRISTI, Tex., Oct. 5.—Fitzsimmons goes right along with his training, notwithstanding the legislature's recent action at Austin. He says he has an offer from responsible parties to pull the fight off should the Florida Athletic club fail to do so. He says he is determined to give Corbett no possible opportunity to escape him, and that the big dude will either have to fight or leave the country branded as a coward, who is afraid to meet a man who is much smaller than himself.

Dan Stuart Waiting for Mexico.

SAN ANTONIO, Tex., Oct. 5.—The gentlemen who secured a concession from the state of Tamaulipas to have a prize fight and a bull-fighting tournament in Nuevo Laredo have sent a Mexican gentleman who is related to President Diaz to the capital to secure immunity from interference. Dan Stuart has agreed to wait three days until this gentleman can secure an audience with the president.

Mysterious Reappearance.

TUNKHANNOCK, Pa., Oct. 5.—Henry Harding, a prominent lawyer, who disappeared from this place early in March 1894, came into town on a through express from Thursday night. At the time of his mysterious disappearance a package was found in his office vault, giving directions as to the settlement of his estate, but throwing no light on his disappearance. He left a devoted wife and son, a luxurious home and a large legal practice. Yesterday he dropped into his old office as naturally as if he had never been away. He refuses to give any explanation of the matter for the present, but says he may talk later.

Death of a Leading Educator.

NEW YORK, Oct. 5.—Hjalmar Hjorth Boyeson, professor of the Germanic languages and literature in Columbia college and a well known writer, died suddenly yesterday from rheumatism of the heart, aged 47. He was a native of Norway, but was a lover of our institutions, and came here to reside permanently on attaining his majority. He had a high reputation as a lecturer, as well as a novelist and essayist, and among his friends numbered such men as Victor Hugo and Tourgeneff. He leaves a widow and two children.

After an Italian Murderer.

HAMMONTON, N. J., Oct. 5.—Charles Roller died here last night as the result of a bullet wound in the abdomen inflicted by Antonio Gartona, an Italian, during a quarrel near Folsom. Gartona came to this city and kept in hiding for a time, and was then seen to board a train for Philadelphia. He was followed and located in the rear of a South street dwelling. Word was telegraphed to Constable Burnshouse, who left on an early train with a warrant for his arrest. Roller was a prosperous farmer and leaves a wife and family.

LOOKS DARK FOR DURRANT.

His Conviction for Miss Lamont's Murder Considered Certain.

SAN FRANCISCO, Oct. 5.—If the manner in which the attorneys for the defense in the trial of Theodore Durrant are handling their case is an indication of the strength of their position the prosecution believes the developments of yesterday leave little doubt of the prisoner's conviction. To the surprise of everybody the defense yesterday afternoon began the calling of witnesses to show the previous good character of the young Sunday school superintendent.

By the prosecution this step is interpreted to mean that the defense has introduced all of the evidence that it has to refute the mass of testimony piled up by the people. If this be true the verdict of the jury is a foregone conclusion. Not only has the defense failed to establish an alibi for Durrant, but it has actually strengthened the case against the prisoner.

Miss Cunningham, the newspaper reporter, who was threatened with imprisonment yesterday because she would not answer a question propounded to her by the defense, was called to the stand again to give her another opportunity to answer the question. She refused to disclose the source of her information with regard to the nature of Mrs. Lauk's testimony, but instead of sending her to prison the court took the matter under advisement until next Tuesday. In a similar case the supreme court of California sustained the position of a newspaper reporter, and the court is, therefore, in doubt of its power in the premises.

Rev. J. George Gibson, pastor of the Emanuel church, was called by the defense for the purpose of identifying specimens of his handwriting. The witness refused positively to identify any of the specimens handed to him. He said the writing looked like his own, but as the document had not been in his possession for some time, if at all, he could not positively identify the writing. At the request of Attorney Duprey Mr. Gibson wrote the name and address of Mrs. T. G. Noble, Blanche Lamont's aunt. The writing of Mr. Gibson will play an important part in the future proceedings, as Attorney Duprey announced in his opening statement that he would prove that Mr. Gibson directed the wrapper in which Blanche Lamont's rings were returned to Mrs. Noble.

MORE COUNTERFEITERS

Six Italians Arrested by Government Agents in New York.

NEW YORK, Oct. 5.—Another big haul of counterfeiters has been made by the agents of the government secret service. Six Italians were arraigned before United States Commissioner Alexander yesterday afternoon, charged with having sold and having in their possession a number of counterfeit standard silver dollars and obligations of the United States in the form of silver cititicates of the denomination of $5, of the issue of 1886, with the Grant head on, and signed by W. S. Rosecrans, register of the treasury, and E. H. Nebacker, treasurer of the United States. The prisoners are Angelo Posteri, Joseph Carlise, Charles Carlise Joseph Costelli, Saro Lazaro and Salvatore Macchione.

They were arrested at different times on Thursday. Most of them were on Stanton street, at a barber shop which seems to have been their rendezvous. For months the Italian and Hebrew quarters of the city have been flooded with spurious coin, and Detective George R. Bagg, of the secret service, with four others, were detailed to trace the counterfeits to the responsible parties. An accomplice, Angelo Posteri, was finally induced to turn state's evidence.

The counterfeit coin and bills are of excellent workmanship. The bills are of the same make as the ones which were circulated in this city in 1893.

The officers recovered $150 in counterfeit coin and $75 in $5 bills and a quantity of plaster of paris, metal and other material used in making spurious coin. The seizure was made in the barber shop of the two Carlises, who are supposed to be the wholesale dealers.

Lazaro, Macchione and Costelli were each held in $8,000 bail, and Posteri and Charles and Joseph Carlise in $5,000 bail each for examination Oct. 19.

A Rebuke to Compromising Crime.

CHICAGO, Oct. 5.—The United States government has decided to take a hand in connection with the alleged embezzlement of the National Bank of Illinois funds. Last night ex-Paying Teller Joseph H. Wilson, who was implicated in the steal of about $210,000 of the bank's money, was arrested at his home on a government warrant sworn out by National Bank Examiner John McKeon. Wilson was held to the grand jury under $5,000 bonds. He was much surprised, and did not seem to understand how it came about, as he had settled his affairs with the bank in a manner satisfactory to the officers of that institution, and the latter refrained from prosecuting him.

European Claims Against Brazil.

BUENOS AYRES, Oct. 5.—A Rio Janeiro dispatch to El Diario says that England, France and Italy have decided upon collective action with a view to securing satisfaction of their respective claims upon Brazil. The claims of France grow out of the disputed jurisdiction of the territory of Amapa lying between Brazil and French Guiana. Italy's claims are for reparation on account of damages suffered by Italian subjects during the revolution in Brazil. The Italian minister withdrew from Rio last summer, leaving the legation there in charge of an attache to mark the strained relations between the two countries. England's claim probably relate to the island of Trinidad.

A Child Bitten by Hogs.

WEYMOUTH, Mass., Oct. 5.—Arthur Beckman, 5 years old, had a narrow escape from a horrible death. He was playing in the barn of A. W. Baker, and fell down in the scuttle hole. He was immediately attacked by the pigs, which were kept there, and before he could be rescued was horribly bitten on the face, hands, arms and body, and one wrist was broken. His condition is dangerous, and blood poisoning is feared.

ARMENIANS TO BLAME

For the Recent Deadly Riots in Constantinople.

FOREIGN AMBASSADORS PROTEST.

Energetic Representations to the Turkish Foreign Ministers Arrest the Excesses Committed by the Police—Armenians Still Barricaded in Their Cathedral.

CONSTANTINOPLE, Oct. 5.—After a conference of the foreign ambassadors yesterday energetic representations were made to the Turkish foreign minister complaining of the excesses committed, as much by the police as by the Mussulman populace, on the prisoners, killed and wounded, on Monday and Tuesday, many of whom were dispatched with bludgeons, while others were most cruelly maltreated. The representatives of the powers begged the foreign minister to take measures to prevent the foreign residents of Constantinople from suffering, and to restore order.

The United States minister, Mr. Alex. W. Terrell, also made representations to the Turkish government requesting that steps be taken to secure the safety of the United States missionaries in the Koumkapon quarter.

Messrs. Chirton and Hunter, the newly appointed United States consuls, started for Erzeroum and Harpoot, respectively, yesterday without their exequaturs. The British consul at Trebizonde has been instructed to grant them every facility and protection in the accomplishment of their journey and in establishing themselves at their posts.

The Turkish quarters are guarded throughout the night in order to prevent the Mussulman inhabitants from coming out and renewing the disturbances.

The city is now tranquil, although it is still patrolled by troops and police, and there is yet much apprehension among the Armenians. The Softas were especially guilty of great excesses on Tuesday, especially during the raid on the Armenian quarter which they made at night. At Tookurtchesme, near Stambul, the students and populace broke into an Armenian building, and killed fifteen persons and wounded thirty-five others. In addition it is said that they immediately conveyed the bodies to the shore and threw them into the sea.

There was another fierce fight in an Armenian cafe at Scutari, during which several persons were killed and wounded on both sides. At Hasskoin a number of Armenian houses were broken into and sacked by the Softas, who killed a number of Armenians inhabiting these buildings. On the other hand, at Karqheumruk, near Stambul, revolvers were fired from the windows of Armenian houses, and all the Armenian inhabitants were arrested.

At the invitation of the Armenian notabilities, acting at the request of the Turkish government, some of the Armenians who had sought refuge in the Koumkapon cathedral have returned to their homes, but the majority refuse to leave the sacred edifice, where they are safely barricaded, out of fear of being arrested and maltreated by the Turks.

The arrests of Armenians continue to be made in all parts of the city, and the police are making domiciliary visits wherever the Armenians live, and are searching all the Armenian stores.

The Armenians to Blame.

LONDON, Oct. 5.—Foreign office officials have expressed the opinion that the disturbances at Constantinople will seriously embarrass the powers in their efforts to bring about reform in Armenia. They hold that a heavy responsibility rests upon the Armenians for precipitating the riots at Constantinople, and the opinion is gaining ground that the recent events there have caused a revulsion of feeling throughout Europe, and those who were urging their governments to take immediate steps to deliver the Armenians from oppression begin to see distinctly that there is another side to the question.

Victims of the Riots.

LONDON, Oct. 5.—The Berlin correspondent of The Standard telegraphs to that paper that he learns privately that the number of Turks killed on Monday in the riots of Constantinople was forty-eight, and of Armenians 111. The number of wounded on both sides was several hundred.

An English Criticism.

LONDON, Oct. 5.—The Daily News this morning, commenting on the South Carolina constitutional convention, says: "Nothing but a strong declaration of public opinion throughout the United States and the civilized world can prevent this monstrous injustice of depriving the black man of his rights as a citizen simply because he is black. This is, in fact one other effort to subjugate the blacks. Race hatred is, perhaps, as strong as ever in some of the southern states."

Frank Erne Defeats Jack Skelly.

NEW YORK, Oct. 5.—A boxing exhibition was given by the Manhattan Athletic club last night, the principal event being advertised as a fifteen round go between Frank Erne, of Buffalo, and Jack Skelly, of Brooklyn. The fighting was fast and furious, and in the ninth round Skelly was knocked out and the contest awarded to Erne. Previous to this event Tommy West, of Boston, defeated Mike Harris, of New York, in seven rounds.

Italian Bark Abandoned at Sea.

SAN FRANCISCO, Oct. 5.—The Italian bark Beppe is a total loss. She was abandoned at sea on Aug. 11 by her crew. Her cargo of coal was ignited by spontaneous combustion. The Beppo was bound from Androssan for San Francisco with 1,500 tons of coal.

General Mahone's Tenacity.

WASHINGTON, Oct. 5.—General Mahone shows a wonderful tenacity, which is a surprise even to his physicians. At midnight there was no appreciable change from that reported yesterday.

THE REPUBLIC OF CUBA.

The Provisional Government Gives Way to a Permanent Organization.

PUERTO PRINCIPE, Cuba, Oct 5.—At the recent meeting of the Cuban provincial delegates in this place the report of the special committee appointed to draft a constitution was adopted without debate, the fundamental laws of the republic were formally proclaimed and the independence of the island from Spain solemnly declared. The provisional government of General Masso gives way to this permanent organization:

President, Salvador Cisneros; vice president, Bartolome Masso; secretary of war, Carlos Roloff; assistant secretary of war, Mario Menocal; secretary of foreign affairs, Rafael Portuondo, assistant secretary of foreign affairs, Fermin V. Dominguez; secretary of the treasury, Severa Pina; assistant secretary of the treasury, Joaquin Castillo; secretary of the interior, Santiago J. Saninares; assistant secretary of the interior, Carlos Dubois; general-in chief, Maximo Gomez; lieutenant general, Antonio Maceo.

The provinces of Santa Clara, Santiago, Havana, Puerto Principe and Matanzas are all represented in the new government, and the organization seems to give general satisfaction to insurgents and to insurgent sympathizers throughout the island.

Cuban Leaders Killed in Battle.

HAVANA, Oct. 5.—A column of troops, numbering 300 men, commanded by Colonel Segura, has had a brush with the insurgents at Camp Arroya Blanco. Two insurgents were killed, one of them being Major Gabino Vazquez, whose body has been identified. Nine insurgent prisoners arrived here yesterday from Camaguay. They were sent to the fortress of Cabana. Among them was Jose Prado, editor of The El Cubano, a daily newspaper devoted to the cause of the insurgents. In the ambuscade fight near Camujero, province of Puerto Principe, the insurgent leader Paco Recio was killed. It is officially reported that in the engagement between the insurgents and Spanish troops at Las Varas, near Sancti Spiritus, the insurgents lost forty killed and 166 wounded. Among the latter was Serafin Sanchez, who led the insurgents. Confirmation has been received here of the death of Rafel Arce.

An Octogenarian Burned to Death.

FLEMINGTON, N. J., Oct. 5.—One man was burned to death and one woman seriously injured at Croton yesterday. The handsome residence of King Pyatt, who was 80 years old and known as "the original Jersey peach grower," caught fire. The flames ate their way to the upper stories before the family was aware of the fire, cutting off all escape. Mrs. Mary Hires, a lodger, staggered out of her bed and aroused Mr. Pyatt. He tried to descend a stairway, and was overcome by smoke and fell to the hall below, which was a mass of flames. The other inmates escaped, Mrs. Hires with a broken leg and internal injuries.

It was received with demonstrations at Fredericksburg, Milford, Ashland and other stations between Richmond and Washington. Upon the arrival of the bell in Richmond a salute of twenty-one guns was fired by the Howitzers, and the escort was met by a committee of city officials. The gentlemen accompanying the bell were received by Governor O'Ferrall at the executive mansion soon after their arrival. Resident members of the governor's staff assisted him in receiving the Philadelphians. The bell will arrive in Atlanta on Tuesday next.

During the past three days the city has received more than $7,500 in fines.

"MARCHING THROUGH GEORGIA."

Another Army Will Soon Invade the State, but With Peaceful Intent.

If the present plan of campaign is carried out a big army of northern soldiers will soon for the second time be "marching through Georgia," but their swords have been turned into plowshares and the only conquest they will seek is the peaceful conquest of the soil. Under the leadership of Philander H. Fitzgerald, the father of the scheme, they will found an old soldiers' colony in Irwin and Wilcox counties, Ga., and will take possession of 100,000 acres of choice agricultural land that has been contracted for at $3.50 per acre. Fitzgerald is the editor of an old soldiers' paper published in Indianapolis, and his colonizarion scheme promises to be the biggest thing of the kind ever attempted in this country.

P. H. FITZGERALD.

A year ago Fitzgerald announced that he would form a company with $500,000 capital, divided into 50,000 shares of $10 each, of which a single man could own but ten. The veterans in 20 states have become interested in the project, and it is said that within a few months fully 8,000 people will settle on the colony's land. There will be no Oklahoma rush when the colony is declared open for the reason that the land will be awarded to each colonist by a sort of lottery drawing that will make the proceeding as fair as it could be.

The land is 26 miles square, and in the center 2,000 acres are reserved for a town that will be built at once by the colony company. Hotels, business houses, banks, newspaper offices, churches and 35 schoolhouses will be built by the company, and each member will have an interest in the town and colony property, but will have control over only that part which falls to him by lot.

The land is said to be a very fertile tract well adapted to raising enormous crops of peaches, potatoes, melons, corn and rice, and 60,000 acres are still covered with valuable white pine. Every other piece of property in the town will be reserved and improved and disposed of to later arrivals.

Deafness Cannot be Cured

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure Deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

A POLITICAL SCHEME.

A Pretended Complaint Against Gen. Lathrop and Its True Animus

The charges recently made against General Lathrop, Superintendent of State Prisons, by ex-Congressman Wever and ex-Sheriff White, of Plattsburgh, are the subject of much comment.

The causes leading to the making of the charges seem to be well understood and the action of the makers is severely criticised by many of the Republican State officials, who look upon the attack as an unwise and impolitic scheme to secure control of the prisons for political purposes.

The charges are made up from the report of the sub-committee that investigated the prisons last winter. The points made in that report were met by the minority report in so thorough a manner that it was generally thought that the investigation had failed in its purposes and that nothing further would be heard of it. Everybody seemed to be satisfied that the prisons were being properly managed, except a few politicians who wanted places. They needed them so bad to help them in their political business that they were ready to go to any length to get them. Among these few politicians were the men who make the charges—Ex-Congressman Wever and ex-Sheriff White, both Ex's and out of a political job. Rumor says that Wever wants to be Superintendent and White wants to be Warden, and above all Wever wants to remain Boss of Clinton county. If he can get the prisons he can hold his prestage; without them the Moffitt-McCaffrey-Turner combination will control.

It is said that about the time the sub-committee, which was headed by Senator Kilburn (Wever's close political friend) began its work Wever and Kilburn demanded of General Lathrop the patronage of Clinton prison, wholly on political grounds. The General declined to accede to their demands and the investigation was carried on. The sessions were held behind closed doors and the officials were not allowed to be represented, nor even allowed to attend the hearings. The report of the majority was presented to the Legislature and received, but that of the minority member was rejected by the Legislature. The manifest unfairness of the whole proceeding has disgusted fair minded men and the consensus of opinion about the Capitol is that General Lathrop's answer to the charges will so completely refute them that the matter will end there.

IMPORTS AND EXPORTS.

A Coal Trade Organ Tells Some Facts About Supply and Demand.

The unwise editor of the Record, at Wilkesbarre, Pa., prints this:

"The collieries through the coal regions are working scarcely half time and the miners are just about able to keep body and soul together, and yet under the Cleveland administration the Welsh and Australian mines are kept going and the gold is drained from the United States treasury to pay for it."

Very little anthracite goes to the Pacific coast, as there is little demand for it at its cost delivered there. Of soft coal sent from Atlantic coast ports only the best for blacksmith use, can stand the expense. The Australian and Welsh coal gets to the Pacific, and is wanted, because its quality is better and it sells higher than our own Pacific coast coal. The returning colliers go grain laden and bring millions to our farmers and thus help to enrich the country.

While on this topic the following is of interest. A sample order for 20,000 tons of coal to be shipped to Mexico and another almost as large for several points in Central America were recently divided among the leading mines of the Fairmont region of West Virginia. The Davis coal and coke company has been doing a good business in the exportation of coal and coke to Mexico. The Log Mountain company, of Pineville, Ky., is filing an order for 20,000 tons of canal coal for Rio Janerio, Brazil. Our exports in the last fiscal year of June 30, 1895, were 1,597,204 tons anthracite and 2,374,988 tons bituminous. Imports, 1,254,666 tons, mainly to Pacific coast points.

Figure up 1,000,000 tons of grain, as in the return colliers from Pacific coast ports. That means much to us, but perhaps the youth who wrote the item referred to fancies we could sell the grain and not buy the coal or take it in part payment.—Coal Trade Journal

THROWN OUT BODILY.

One of the Disgraceful Minor Incidents at Saratoga.

One of the most disgraceful minor incidents of the Platt convention at Saratoga was the way in which the honestly-elected anti-Platt, or Brookfield, delegates from New York city were thrown out of the convention and their seats awarded to Platt heelers without the slightest pretense of fairness or honesty. Naturally, these excluded delegates and their friends are righteously indignant and resentful at the outrage thus perpetrated upon them. Gen. C. H. T. Collis, a distinguished lifelong Republican and one of Mayor Strong's appointees, was, although he carried his district by a large majority, thus excluded and his Plattite opponents seated. He declared to a reporter of the New York Post (Ind.) that he had been "robbed by a crowd of vagabonds." Until the day before the convention Gen. Collis did not know that there was to be even a contest by the Platt men of the district. Then, he says, he found that the Platt delegates were on the convention roll, and he had to appear as a contestant himself. "It was an outrage," added Gen. Collis, "a disgraceful trick, and I am going to find out just how it was managed."

Political Straws.

Hundreds of thousands of citizens, including a heavy percentage of Republicans, participated in a parade for personal liberty and against Roosevelt in New York Sept. 25.

The New York World, Times, and Staats-Zeitung, the latter the leading German-American paper of the United States, and the Brooklyn Eagle, none of which supported the Democratic party last year, are unitedly and zealously championing Democratic success this year.

The State Democracy so-called, whose delegates declined to accept the representation of one-fifth of the New York city vote at Syracuse, has unanimously voted to endorse and work for the State ticket. There will be no division in New York city on State issues, and conservative estimates are for a Democratic majority of from 70,000 to 80,000 there.

MUNYON

A PROMINENT MERCHANT CURED By HIS IMPROVED HOMEOPATHIC REMEDIES.

A Severe Case of Catarrh of the Stomach That Baffled the Skill of Physicians speedily Cured by the Munyon System.

Mr. Edward Allen, the well known lumber merchant at York and Richmond streets, says: "For the past twenty years I had suffered from catarrh of the stomach. I tried the best physicians in the city without benefit. Finally I consulted Munyon's specialists, and within a short timed was completely cured."

The Munyon Remedy Company prepares specifics for nearly every disease, which are sold by all druggists, mostly for 25 cents a bottle.

Professor Munyon will carefully diagnose the case and give you the benefit of his advice absolutely free of all charge. The Remedies will be sent to any address on receipt of retail price.

WHERE HUMAN LIFE IS CHEAP.

Pike County's Commissioners Again Vote to Spend No Money in Prosecuting Murderers.

The District Attorney of Pike county called a meeting of the County Commissioners, Thursday, and asked them to appropriate the necessary funds to capture and prosecute Hausmann, who shot Justice Newberger and Constable Quick, Wednesday. The Commissioners positively refused to have anything to do with the matter, and as they hold the county purse strings no money can be had to punish the man who has fatally wounded one man and tried to kill two others.

The Rondout Valley Railroad Project.

Hon. Lafe Pence, Vice President of the company which proposes to build a railroad in the Rondout Valley, was in Kingston, Thursday. He says the right of way has been secured from Summitville to Marbletown, and that negotiations are well under way for securing land rights between Marbletown and Kingston. It is proposed to connect with the Ulster and Delaware above the Higginsville bridge.

No mystery about it. When the Shakers offered some time ago to give away a bottle of their Digestive Cordial to any one who might call at their New York office, there was a great rush and a great many people thought they were crazy.

Subsequent events prove it to have been a very clever advertising transaction, for although they gave away thousands of bottles, it was in the end profitable; nearly everyone that took a free bottle came back for more and paid for it with pleasure, saying they had derived better results from its use than from any other medicine they had ever used.

There is nothing so uniformly successful in the treatment of stomach troubles as the Shaker Digestive Cordial, and what is better than all, it relieves at once.

DEMOCRATIC COUNTY CONVENTION.

A Democratic County Convention will be held at Goshen, N Y, on Tuesday, Oct. 8th, 1895, at 12 o'clock noon, to select candidates for the different county offices, and transact such other business as may come before the convention.

S D ROBERSON, Chairman
B. B. SAYER, Secretary
Dated Sept. 27th, 1895.

DEMOCRATIC NOMINATIONS.

For Secretary of State,
HORATIO C. KING,
of Kings county.

For Comptroller,
JOHN B. JUDSON,
of Fulton county

For Treasurer,
DEWITT C DOW,
of Schoharie county.

For Attorney-General
NORTON CHASE,
of Albany county

For Engineer and Surveyor,
RUSSELL R STUART,
of Onondaga county.

For Judge of the Court of Appeals,
JOHN D TELLER,
of Cayuga county.

SENATORIAL.

For Senator,
GEORGE DICKEY,
of Rockland.

JUDICIARY.

For Justices of the Supreme Court,
MARTIN J. KEOGH,
of Westchester county
ALMET F JENKS,
of Kings county
JAMES W. COVERT,
of Queens county.

At the Democratic Assembly Convention for the First District, held in Newburgh, yesterday, Henry Garner, of Newburgh, was nominated by acclammation.

In the Twenty-fifth District, Ulster and Greene counties, the Democrats, yesterday, renominated Hon. Jacob Rice, of Kingston, for Senator. The Republicans nominated Charles Davis.

It may have been good politics to "take care of Deerpark" by nominating Obadiah Pelett Howell for Surrogate. Had the interests of the people of Orange county rather than the geographical requirements of Republican politics been considered by the convention the nomination would have been given to any of the other candidates whose names were before it.

The Republican convention in the Twenty-sixth Senatorial District, Sullivan, Delaware and Chenango counties, met at Sidney, Thursday. Each county had six delegates and a candidate. Sullivan's votes were cast for Alpheus Potts, those of Delaware for James Ballantine and those of Chenango for John Church. One hundred ballots were taken Thursday and then the convention adjourned until Friday morning, when balloting was resumed and Ballantine was nominated.

A syndicate composed of wealthy worsted manufacturers from Bradford, England,—the centre of English woolen manufacture,—has bought the large woolen mills at Broadbrook, Conn, and proposes to engage very extensively in the manufacture of woolens and worsteds. In July another syndicate of Bradford manufacturers bought the Fulton, N. Y., worsted mills, said to be the largest concern of the kind in the country. These purchases are significant, for they show that English manufacturers do not believe that Wilson bill duties on woolens and worsteds will let in a "flood" of Bradford made goods that will drive American manufacturers out of business. They also show that with free wool, English manufacturers believe that greater opportunities for manufacturing at a profit are afforded in this country than in England and therefore they are investing their money here.

REPRESENTED EVIL FORCES
From the New York World.

Not Coggeshall, not Robertson, and not even O'Connor himself, represented more evil forces in the last Legislature than this little Platt man, Lexow.

It will be a shame to the counties of Orange and Rockland if this betrayer of public trust is re-elected to the Senate.

BOTH MISLAID
From the Albany Argus.

Dr. Parkhurst's congratulations to Lexow on his renomination are supposed to have been mislaid, like Lexow's reform principles.

Tired women need to have their blood purified and enriched by Hood's Sarsaparilla. It will give them strength and health. 11

For Building Up

There is no medicine like Hood's Sarsaparilla, because it lays a solid foundation in making pure, rich blood.

"Weak lungs affected my health for two years The least cold troubled me greatly. I read about Hood's Sarsaparilla in the newspaper and after one bottle I felt a great deal better. Since taking six bottles I don't think there is any building up medicine that equals Hood's Sarsaparilla. It has effected a wonderful change in my health." MRS. A. LAMBRECHT, Franklin, N. Y.

TROLLEY CARS COLLIDE.

A GOSHEN CAR CRASHES INTO THE WIRING CAR AT BIG CUT.

Motorman Dunlevy So Badly Injured That Amputation of Both Legs Was Necessary—May Die of His Injuries—Passengers Slightly Injured—Why Reversing Did Not Stop the Car.

As a result of apparently gross carelessness or incompetency upon the part of some one, William Dunlevy, a motorman, in the employ of the Middletown-Goshen Traction Company, has lost both feet, and may lose his life.

About 9.20 o'clock this morning, vestibule car No. 14, in charge of Motorman Dunlevy and Conductor Willard Gould, left the Park for Goshen.

Their block was clear, and the car proceeded at the usual rapid rate of speed. The long hill beyond Bauer's Park was climbed, and the car commenced the descent around the curve, beyond what is known as the "big cut," when Dunlevy saw the "wiring car," No. 10, standing on the track 260 feet ahead of him. He applied the brakes and reversed the current. The car seemed for a moment to respond to the reversal, and then shot ahead on the sliding wheels, crashing into car No. 10, and both cars continued their downward course for a distance of 160 feet before they came to a standstill.

Linemen John Ayres and S. Simpson were at work on the top of car No. 10 repairing the feed wire. They saw the impending collision and laid down flat upon top of the car and escaped injury. When the car stopped they jumped down and ran to Dunlevy's assistance.

TAKEN OUT OF THE WRECK.

The unfortunate man was pinned among the debris of the platforms of the telescoped cars, and was extricated with difficulty. Both feet were crushed and bleeding and the man was suffering intense pain. A passenger on the car, Mr. J. B. Quick, of Campbell Hall, assisted in stopping the flow of blood by tying strings about the man's legs above the injuries, and Conductor Gould ran back to the park and telephoned to this city.

Motorman Coleman was dispatched to the scene of the accident with a car and Dunlevy was brought to the corner of Railroad avenue and East Main street, where he was transferred to the ambulance and taken to Terrell Hospital.

PASSENGERS SLIGHTLY INJURED.

Messrs. Wesley Davey, William Degnan and Thomas Nevins, plumbers employed by Degnan & Co., were on the car and received several cuts and bruises. Mr. Davey sat next to the door of the car and the force of the collision sent his head through the end window. He was cut about the face and hands and was injured on the knee and ankle,

The other passengers were Mrs. Fred N. Boyd, Miss Mary Dougherty, of Cortland street, Miss Irene Dolson and Miss Crosby, Mr. W. N. Gearn, of 290 Broadway, Newburgh, and Mr. M. W. Mahan, of Circleville. None of these were injured beyond several slight cuts from flying particles of glass.

BOTH LEGS AMPUTATED

Dunlevy was suffering terribly upon his arrival at the hospital, and some time elapsed before he rallied sufficiently to stand the operation which Drs. Hulett, Mills and Smiley decided would be necessary. Both legs were amputated halfway between the knee and ankle.

Dunlevy was formerly a resident of Bond's Village, Mass., and has been employed for some years by the Ontario and Western and West Shore roads. He met with an accident some time ago, while working on the West Shore, whereby he lost all the fingers of his left hand, except the little finger and a stump of the thumb. About a week ago he received a check for $1,200 from the Brotherhood of Locomotive Trainmen for the disability.

WHO IS TO BLAME?

The responsibility for the accident has not yet been placed by Supt. Urbin. The linemen were at a standstill 1,260 feet, by actual measurement, from the point where Dunlevy should have seen them first. They both saw him apply brakes and reverse the current lever.

WHY REVERSING DID NO GOOD

Supt. Urbin states that the brakes were set when he arrived, and that had they been free when the current was reversed, the car could easily have been stopped. As the brakes were set it was impossible for the wheels to revolve, and the momentum of the car caused it to slide with locked wheels on the rail.

It would seem as though the car should have been brought to a standstill in a distance of 260 feet. It also seems that the work car should not have been permitted to stand on the track without a flag or block to notify an approaching car.

FIRE AT OTISVILLE.

One Barn and Contents Destroyed—Another Set On Fire—An Incendiary's Work.

The large barns of Samuel Writer, between Finchville and Otisville, were entirely destroyed by fire, this morning. There were in the building about forty cons of hay and the season's crop of grain, besides a quantity of farming implements. The fire was discovered about 5 o'clock, this morning, and had made such progress that the building could not be saved.

While the neighbors were at work on this fire, a blaze was discovered in the roof of the barn of Frank Hull, on the Lockwood farm, half a mile away, and they hastened to the place and by vigorous and well directed efforts extinguished the flames before much damage had been done.

It is generally believed in the neighborhood that both fires were the work of an incendiary.

From a Special Correspondent.

—Mrs. Henry Youngs died very suddenly, yesterday, at her home in East Division, from the effects of an apoplectic stroke. A COWBOY RACE.

A pattering rush like the rattle of hail
When the storm king's wild coursers are out on the trail,
A long roll of hoofs—and the earth is a drum!
The centaurs! See! Over the prairie they come!

A rollicking, clattering, battering beat,
A rhythmical thunder of galloping feet,
A swift swirling dust-cloud—a mad hurricane
Of swarthy grim faces and tossing black mane.

Hurrah! In the face of the steeds of the sun
The gauntlet is flung and the race is begun!

—J. C. Davis.

THE PRIMULA LADY.

I entirely forget the name of the opera, what it was about and who sang in it, but I know it was the first I ever saw—if indeed I can be said to have seen it! At all events, I was present at the performance, and the evening and its occurrences are indelibly stamped on my memory. I was 17, thoroughly unmusical, but possessed of a keen sense of enjoyment, and the scene, looked upon for the first time in my life, delighted me. The fair faces, the gorgeous toilets, the hum of voices, the light, the movement, all combined to quicken the beat of my pulse and make me feel giddy and light headed.

The curtain went up, and after the first few minutes I began to be bored. It was a heavy opera, so I was told, with no "airs" in it, and full of loud, deafening choruses. It seemed to me there were nothing but choruses—choruses of monks and soldiers and village maidens and peasants—and the noise wearied me I did not understand the plot, and I turned to the spectators for amusement. Opposite to us, in a box immediately facing ours, sat a couple whose appearance arrested my attention. I could not see the lady's face, for it was turned away from me toward the stage, but in her hair was a diamond comb of quaint design that took my fancy. Against the smooth dark tresses the stones sparkled and glittered as in a setting of onyx. It was a warm evening, but she kept her brocade cloak of a curious shade of Rose du Barri pink shot with gold wrapped closely round her. She had no bouquet, but in front of her, on the ledge of the box, was an enormous black feather fan mounted in tortoise shell. Her companion—a slight man with a pale olive complexion and dark beard streaked with gray—had a face that interested me strangely. It wore such a weary expression—more weary perhaps than actually sad. He looked like a man who at some time or other during his life had made an effort beyond his strength and had never recovered from the exertion. Like me, he did not appear to be interested in the story of the opera.

The noise went on. The peasants retired, and after a short love scene between the hero and the heroine a band of soldiers came on and sang to some very loud music. I leaned back in my seat. My head was beginning to ache and my eyes to feel tired. I closed them, simply for a few minutes' rest. When I opened them, they seemed to light naturally on my opposite neighbors, and I started as I noticed the changed aspect of the box. The lady had evidently thrown off her cloak and had come more forward. Her eyes were no longer fixed on the stage. They were turned toward me. And what different eyes they were from those I thought she would possess. They were soft and veiled by lashes very little darker than her hair, which could scarcely be termed golden, it was so fair. How could I have believed her to be a brunette? She must have been seated in the shade when I first saw her and had since emerged into the light. She had moved her fan, and in its place lay a bouquet of mauve and white primulas. A small bunch of the same flowers were pinned into her simple high white dress at the throat and another showed among the loosely coiled tresses of her fair hair.

"It cannot be the same woman," I said to myself, "and yet my eyes were not closed for more than a minute or two, I am certain. There could not have been time—and—yet"— The irritating accompaniment to the "recitative," the perfume of my chaperon hostess' bouquet, the effort to explain the mystery, the unusualness of the scene, and the exhausted state of the air, all combined to produce an overpowering effect on my brain. I closed my eyes again and was very nearly asleep—not quite, I am certain—when a touch from Mrs. Waldo's fan and the sound of a light, unfamiliar laugh recalled me to myself and to a consciousness of my duty.

The first act had come to an end, and a gentleman had just entered our box to pay his respects to my chaperon, who forthwith introduced us, "Mr Venning, Miss Linthrop." I bowed and felt very sheepish. I had literally been caught napping. Mrs Waldo's explanation was not soothing.

"Miss Linthrop is unaccustomed to late hours, Mr. Venning. This is her first season, and her very first opera. I wish for her sake that it had been a more amusing one. Valozzi has clearly mistaken his vocation. He must never attempt another opera, must he? This one is deplorably dull."

"It is, as far as we have gone. But still one's first opera is always—one's first opera, and one is too well amused to be hypercritical. I'm sure Miss Linthrop wasn't bored, although she might have been a little sleepy."

"I was not, at all bored," I replied, and then going straight to the point, as has ever been my wont, I continued: "Who are the people—the lady and gentleman in the opposite box—the lady with"— "With the primulas," I was going to say. But, lo! they had vanished, and so had she, and in her place sat the tall dark woman in the pink brocade cloak with the diamonds in her hair.

"The lady with the magnificent cloak?" said Mr. Venning interrogatively. "That is Baroness Kurz, and that is her husband with her—or rather he was with her a moment ago; but, as you see, he has just left the box."

"Who is Baron Kurz?" asked Mrs. Waldo. "I am perpetually hearing of him. German, of course?"

"Only partly so," replied Mr. Venning. "He is the son of a Scotchman, who made a good deal of money in California, and I believe his mother was a Pole. He was brought up by a German grandfather, whose name he eventually took. He is a clever fellow, but an unhappy one, I always fancy. She was a Miss Charcote, a daughter of Lady Jane Charcote."

"But who was the other lady in the box"—I inquired eagerly—"the lady with the primulas?"

"There was no other lady in Kurz's box tonight, Miss Linthrop. You must have been looking at some other box."

Mrs. Waldo laughed. "My young friend has been dreaming, Mr. Venning."

I scorned the imputation, but they would not believe me, and they were still laughing when the door opened and old Lord Saintsbury peeped in.

"Very merry here."

"My friend Miss Linthrop declares that she has seen a lady with primulas in her hair—such a terrible decoration—seated in Baron Kurz's box this evening," said Mrs. Waldo in her loud, clear, penetrating voice, that carried farther than any voice I have ever heard.

I noticed a shade flit across Lord Saintsbury's face. He turned his head sharply and glanced back. Then, stepping quickly into the box, he shut the door behind him.

"Why so mysterious?" asked Mrs. Waldo, smiling.

"Kurz was just behind me. He must have heard what you said." And the old gentleman looked genuinely distressed.

"But why not? We were only laughing at my young friend here. Are you going, Mr. Venning?"

I began to be afraid that I had made a goose of myself. And Lord Saintsbury was looking so solemn. Perhaps that was because he was in the ministry.

"Mrs. Waldo," he began, as soon as Mr. Venning had disappeared, "don't repeat that little story about—the—the lady with the primulas. It"—

"My dear Lord Saintsbury, why mayn't I? I love a little anecdote, and this is such a thrilling one."

"But you would not like to cause pain, I am sure."

"And you think Miss Linthrop so very thin skinned that she cannot take a little chaff?"

"It is not on her account that I am speaking. You may or may not have heard that Miss Charcote was not Kurz's first wife. No? Well, she was not. His first wife was a girl of the people—some said a nursemaid, some a peasant. It really doesn't signify which. At all events, she was neither a lady by birth nor a person of education. After a time he grew tired of her. His father died, and he came into money. He began to go in for society. He met Miss Charcote. One night—it was at the Grand Opera in Paris—she was seated for some time in Lady Jane Charcote's box. His wife was alone in the loge opposite. What she saw or thought I don't know, but when he returned to her she complained of feeling very tired, and he suggested that they should go home. She fainted on the staircase and was carried into their brougham. That same night she died. It was very sudden and rather mysterious."

"Good gracious! Did any one suspect the baron of having poisoned his wife?"

"Not that I know of. But they did say that his neglect had broken her heart. But to come to the point of my story. The first baroness Kurz—Rosine—was a fair, blue eyed woman, with a passion for primulas. In Paris, where she had no acquaintances and was only known by sight, and by many people was not supposed to be Kurz's wife, she always went by the name of 'the lady with the primulas.' That is why I was startled and upset by what you told me. That was why I was distressed that the flower should have been mentioned in Kurz's hearing—for hear I am sure he did."

It was my turn to feel distressed—distressed, but at the same time vividly interested. I was just going to ask Lord Saintsbury whether he had ever known Rosine personally, when Mr. Venning reappeared, and at the same moment I noticed that while we had been discussing the first Baroness Kurz her successor had disappeared from the opposite box—had left the house probably, I thought, bored by the dullness of act 1.

"Such an awful thing has happened!" Mr. Venning's face was pale, and his voice sounded low and hoarse. "Kurz has fallen down dead, just outside the omnibus box."

"Good gracious, how dreadful! But very likely he has only fainted."

Mr. Venning shook his head. "Cleveland met him looking ghastly—you know he does sometimes. And he asked him, 'Are you ill, Kurz?' And the other just stared at him and muttered: 'True, true! She has come for me,' and fell back dead."

I started to my feet. "Mrs. Waldo, I must go home. Please let me. Don't you come, but"—

"My dear child," and her voice sounded a shade harder and louder than usual, "don't make a scene, please." Our visitors had vanished at the bare mention of such a possibility, ever dreaded and held in abhorrence by the sterner sex.

"But I cannot stay. Didn't you hear? He is dead."

Mrs. Waldo stared at me with a look of derision on her handsome stony face. "But you did not know him. It is not customary for young ladies to make scenes over the death of a man they never knew. Such things are not done."

"Ah, but you don't understand. I saw her."

"Her? Whom?"

"The lady with the primulas—his first wife. She came to fetch him. He said so—you heard."

"My dear child, what nonsense! You were dreaming, of course. Hush! We must not talk any more now. We must listen."

And the curtain rose upon act 2.—St. James Budget.

98%

of all cases of consumption can, if taken in the earlier stages of the disease, be cured. This may seem like a bold assertion to those familiar only with the means generally in use for its treatment; as, nasty cod-liver oil and its filthy emulsions, extract of malt, whiskey, different preparations of hypophosphites and such like *palliatives*.

Although by many believed to be incurable, there is the evidence of hundreds of living witnesses to the fact that, in all its earlier stages, consumption is a curable disease. Not every case, but *a large percentage of cases*, and we believe, *fully 98 per cent.* are cured by Dr. Pierce's Golden Medical Discovery, even after the disease has progressed so far as to induce repeated bleedings from the lungs, severe lingering cough with copious expectoration (including tubercular matter), great loss of flesh and extreme emaciation and weakness.

Do you doubt that hundreds of such cases reported to us as cured by "Golden Medical Discovery" were genuine cases of that dread and fatal disease? You need not take our word for it. They have, in nearly every instance, been so pronounced by the best and most experienced home physicians, who have no interest whatever in misrepresenting them, and who were often strongly prejudiced and advised against a trial of "Golden Medical Discovery," but who have been forced to confess that it surpasses, in curative power over this fatal malady, all other medicines with which they are acquainted. Nasty cod-liver oil and its filthy "emulsions" and mixtures, had been tried in nearly all these cases and had either utterly failed to benefit, or had only seemed to benefit a little for a short time. Extract of malt, whiskey, and various preparations of the hypophosphites had also been faithfully tried in vain.

The photographs of a large number of those cured of consumption, bronchitis, lingering coughs, asthma, chronic nasal catarrh and kindred maladies, have been skillfully reproduced in a great Family Doctor Book of 1000 pages, profusely illustrated, which will be mailed to you, on receipt of address and 21 cents in stamps, to cover postage and wrapping *only*.

FROM MANY SOURCES.

Wife—John, why don't you go to sleep? Husband—I'm afraid it might wake up the baby.—Life.

Painter A.—I have just finished a portrait of the professor, and when his wife came to see it yesterday she thought it was really her husband. Painter B.—Indeed! You know my picture of Hercules? Well, last week I thought I would touch up his nose a little, and directly I put my brush on it he sneezed!—Humoristiche Blatter.

Doctor—Countess, I should be glad if you would let me hear you cough. Countess—I don't feel disposed to do so just now. (To her maid) Eliza, please cough as I did this morning.—Motto per Ridere.

A soldier leaving barracks is stopped by the corporal of the guard. "You cannot go out without leave." "I have the verbal permission of the captain." "Show me that verbal permission."—London Globe

Minnie—I saw Mr. Timmins at the play last night, but I don't think he enjoyed it much. Mamie—Yes; he told me that he sat behind your hat and could see very little in it.—Indianapolis Journal.

First Office Boy—Do you like your job? Second Office Boy—Naw! The typewriter is $5, the bookkeeper's sore 'cause he can't be a dude on $8 a week, the installment company took the head clerk's bicycle away from him last week 'cause he hadn't paid up on it, and the boss won't let me whistle anywhere.—Somerville Journal.

"But if you are in earnest in your anti-cruelty to animal principles, how can you bring yourself to encourage their butchery by eating meat?" "I even things up by not paying my butcher bills."—Cincinnati Enquirer.

He—There is one poem of Tennyson's that I like. It is "Break, Break, O Sea!" She—Why do you like that? He—Well, the sea broke me last summer, and I like to see it get paid back.—Syracuse Post.

She—No man is good enough for me. He—I know that, but am I bad enough? —Life.

Miss Gushington—Do you not find Dr. Smalltalk entertaining? He is such a minnie. Mr. Sneerington (who detests the doctor)—I have often noticed that the doctor takes people off cleverly.—Town and Country Journal.

Landlady (country lodgings)—Well, mum, the sittin room is small, but we've a fine large kitchen, and if you like to sit there wi' me and my old man, Lor, bless ye, we won't mind.—Moonshine.

Her Mamma—What is a dead letter, please? Mamma—One that has been given to your father to post.—Household Words.

Conductor—Did I get your fare? Passenger—I guess so. I didn't see you ring it up for the company.—Roxbury Gazette.

Professor Colorz—In this prism blue predominates. Mr. Callow, what is the relative value of the blue and the red? Callow (just waking up)—Why, the blue is 25 cents and the red is 10.—Syracuse Post.

An Insulting Suspicion.

Winks—What's the matter? You look mad as a hornet.

Jinks—I ought to be mad. I've been grossly insulted, and by my own preacher too.

"Your preacher?"

"Yes, my preacher. He stopped me in the street and said he'd noticed that on two or three occasions lately I'd left the church just as the contribution box started around."

"Did you leave?"

"Yes, but you don't suppose it was to avoid adding a paltry dime to the church funds, do you? The idea! It makes me boil to think that preacher—my own preacher, too—should suggest such a thing. It's outrageous."

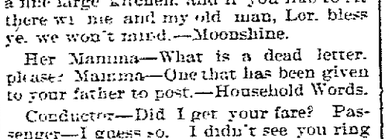
"But why did you leave?"

"It was raining. I'd forgotten my umbrella, and I knew there were only a few in the vestibule."—New York Weekly.

Advised.

A young lady in charge of the captain of a P. and O. boat had two suitors on board and a pug dog. The latter fell overboard, and one of her swains instantly jumped after it into the sea. The other confined himself to leaning over the side and crying, "Poor doggie!" When the rescuer came on board, dripping, the young lady turned to the captain and asked him which of her two lovers, after such an incident, he would recommend her to take. He was a practical man and replied, "Take the dry one," which she accordingly did.—Argonaut.

A Bully Good Time.



"Yes, indeed, very gay here. I've been on the jump all the time."—Truth.

Valuable.

Mrs. Cumso (reading)—A butcher in Indiana killed a cow and found in her stomach several hairpins, a thimble, five screws and a $20 goldpiece.

Mr. Cumso—That bears out exactly what my Uncle Jim used to say.

"What was that?"

"He always contended that there was money in cows."—Life.

A Good Guarantee.

Customer (in shoe store)—Will you warrant these shoes good?

Proprietor—Yes, madam. If you don't find them as good as I tell you, you bring them back, and I'll make them good for nothing.—New York World.

Selfish Man.

Hortense—What would you call well off in life, Mr. Van Jay?

Van Jay—Well, when a man has plenty of money and is single.—Brooklyn Eagle.

His Way of Putting It.

Conductor in a crowded street car: "Room in the rear of the car for one lady or two gentlemen."—Chicago Record

A Baby's Life Saved.

ADDISON, N. Y., April 8, 1894.—Hand Medicine Co.:—"I feel it my duty to write you in regard to my little daughter's sickness from teething and indigestion. She is seven months old. Two of the best physicians gave her up. One bottle of Dr. Hand's Teething Lotion relieved her so much that we tried Dr. Hand's Colic Cure also, and at once saw a change for the better. These remedies saved my baby's life.—Mrs. Wellington Brown." Dr. Hand's Colic Cure and Dr. Hand's Teething Lotion sold by all druggists, 25c.

Relief in Six Hours.

Distressing Kidney and Bladder diseases relieved in six hours by the "THE GREAT SOUTH AMERICAN KIDNEY CURE." This new remedy is a great surprise and delight to physicians on account of its exceeding promptness in relieving pain in the bladder, kidneys, back and every part of the urinary passages in male or female. It relieves retention of water and pain in passing it almost immediately. If you want quick relief and cure this is your remedy. Sold by J. E. Mills, druggist, Middletown N. Y.

A Short Cut to Health.

To try to cure constipation by taking pills is like going round in a circle. You will never reach the point sought, but only get back to the starting point. A perfect natural laxative is Bacon's Celery King, the celebrated remedy for all nerve, blood, stomach, liver and kidney diseases. It regulates the bowels John J. Chambers will give you a sample package free. 6

Some days nothing will "come out right," from the time you rise till you retire. Ten to one, the trouble is in yourself. Your blood is in bad condition, and every organ suffers in consequence. What you need is the cleansing, invigorating influence of Ayer's Sarsaparilla.

When Baby was sick, we gave her Castoria
When she was a Child, she cried for Castoria
When she became Miss, she clung to Castoria
When she had Children, she gave them Castoria

There is great danger in neglecting Colic, Cholera and similar complaints An absolutely prompt and safe cure is found in Dewitt's Colic & Cholera Cure. W. D. Olney.

Rebecca Wilkinson, of Brownsvalley, Ind., says: "I have been in a distressed condition for three years from nervousness, weakness of the stomach, dyspepsia and indigestion until my health was gone. I had been doctoring constantly with no relief. I bought one bottle of South American Nervine, which did me more good than any $50 worth of doctoring I ever did in my life. I would advise every weakly person to use this valuable and lovely medicine; a few bottles of it have cured me completely. I consider it the grandest medicine in the world." Warranted the most wonderful stomach and nerve cure ever known. Sold by J. E. Mills, Middletown, N. Y.

An Important Question.

If your friends or neighbors are suffering from coughs, colds, sore throat, or any throat or lung disease (including consumption), ask them if they have ever used Otto's Cure. This famous German remedy is having a large sale here and is performing some wonderful cures of throat and lung diseases. John J. Chambers will give you a sample bottle free. No matter what other remedies have failed to do, try Otto's Cure. 5

Relief in One Day.

SOUTH AMERICAN NERVINE relieves the worst cases of Nervous Prostration, Nervousness and Nervous Dyspepsia in a single day. No such relief and blessing has ever come to the invalids of this country. Its powers to cure the stomach are wonderful in the extreme. It always cures; it cannot fail. It radically cures all weakness of the stomach and never disappoints. Its effects are marvelous and surprising.—It gladdens the hearts of the suffering and brings immediate relief. It is a luxury to take and always safe. Trial bottles 15 cents. Sold by J. E. Mills, Druggist, Middletown, N. Y.

Persons who are subject to diarrhœa will find a speedy cure in DeWitt's Colic & Cholera Cure. Use no other. It is the best that can be made or that money can procure. It leaves the system in natural condition after its use. We sell it. W. D. Olney.

SLEEP OR DEATH.

For Years Mr. Burgh·im Had Suffered.

Paine's Celery Compound Soon Made Him Well.

Publisher of Two Great German Papers.

CAN NOW WORK FOURTEEN HOURS EVERY DAY.

Sleeps Soundly and Peacefully Every Night He Lives.

Sleep is one of the things that cannot be put off from night to night.

The punishment for sleeplessne·s is worse than pain. It means a shattered mind.

It often hap ens that a sudden stress of work or anxiety robs one of the night's rest. The effect is soon apparent in the languor, headaches and listlessness.

If rapid and abundant means are employed to repair the exhausted parts the nerves regain their elasticity. But if unnatural privation of sleep is carried beyond the stretching power of the brain the whole nervous system becomes undone and prostration results.

Thousands of men struggling under great responsibilties or tedious work, anxious, overworked mothers and wives, shop girls who are forced to stand on their feet all day long,

MR. MAX BURGHEIM.

have little difficulty in convincing their friends of the remarkable power of Paine's celery compound to restore their energy, renew their vigor and make them strong and well.

Here is a letter from Mr. Max Burgheim, the well known president and manager of the Cincinnati Freie Presse Company. Mr. Burgheim writes:

"The following statement may be of interest. I have been suffering from sleeplessness, insomnia, for many years, and although I have tried almost everything to get cured, consulting the best physicians, and even going several times to Europe, everything was in vain.

"I did not have a night's rest for almost six years, that is to say, I could not sleep for two hours in succession in a single night; you can easily imagine what the effect on me had been.

"After spending a fortune in trying for relief I had given up almost all hope, and when I first read about Paine's celery compound I did not have much faith in anything. But after having used so many remedies and consulted so many physicians in this country and abroad I felt like giving the compound a trial. The result was truly wonderful.

"The very first night, about six months ago, that I tried Paine's celery compound you can imagine my joy when I found that I had slept six hours in succession, a thing that I had not been blessed with for so many years. I continued the use for over three months with the same happy result, and although I was fearful lest the malady would come back on me, I can now say that although I have not taken the compound for months I do sleep every night peacefully and without interruption.

"You can easily imagine what this means for a man who works ten teen hours every day in the ye r and has charge of two large newspapers. I consider my case a most remarkable one and I should be glad if this statement should be the means of helping others who have suffered like I in the same untold agonies, and for this reason I give you full permission to make use of this statement in any way you choose."

A JUDGMENT REVERSED.

Judge Beattie's Decision in the Case of Farry vs. the Traction Company.

Judge Beattie has handed down his decision in the appeal of the Middletown-Goshen Traction Company from the judgment obtained in Justice's Court by Thomas Farry, of Goshen, for damages to his wagon and horses. Judge Beattie reverses the judgment of the lower court.

The company made no defence in the trial before the Justice, but appealed the case on questions of law.

The argument of the appeal was by H. W. Wiggins, Esq., for the company, and W. F. O'Neil, Esq., for Farry.

A NUTTING PARTY.

Nickinson and son, Mr. Merritt and Miss Bessie Beers, and Carley Mallette.

Funeral of Mrs. McWilliams.

The funeral of the late Mrs. Julia B. McWilliams was held at 1:30 o'clock yesterday afternoon, from her late residence, No. 15 Mulberry street, and was largely attended. Rev. Charles Beattie, D. D., conducted the services assisted by Rev. R. H. McCready, of Chester. The singing was by a quartette from the Scotchtown Presbyterian Church, of which the deceased was for many years a member. The interment was in the family plot in the Scotchtown Cemetery.

Railroad Companies Settle.

The Susquehanna and Western and Paterson Electric Railways have arranged to pay Miss Laura Birch enough, a Paterson school teacher, $5,000 in settlement of the $7,000 verdict which she obtained against the companies for injuries sustained in an electric car which was run down by the Deckertown Express while crossing the Susquehanna track in Paterson, in June 1894.

Informal Meeting of the Water Commissioners.

The members of the Board of Water Commissioners held an informal meeting, last evening, at which Engineer Lafayette Olney was present and explained to the Board various points of his proposed plan for an increased water supply. A regular meeting of the Board will be held, this evening.

In Hard Luck.

Messrs. Cooper DeGraw, H. M. Hayes, L. C. Terwilliger, F. M. Madden and R. G. Sliter, who went on a deer hunting expedition to Pike county, on Sunday, returned, last night. They had hard luck and returned without even a hair, a feather or a fish scale to show for the five days' outing.

A Cigar Breaks Off a Marriage

While Miss Jennie Titus and Frank Park, of Oneonta, were on their way to a clergyman's for the purpose of being made one, last Thursday, Miss Titus discovered a cigar in Park's coat pocket, and she promptly dismissed him and returned to her home alone. He is an inveterate smoker and she accepted him on the condition that he would give up the use of tobacco.

Where Partridges Abound.

Partridges are said to be very plentiful in the vicinity of Hancock. Ex-Alderman Greene, of this city, has a ca in his mill at that place, which has captured several partridges and brought them to the mill for her young ones.

A New Meat Market.

Mr. F. F. A. Behme, who has conducted a repairing shop on East Main street, has decided upon a change of business, and is converting his store into a meat market.

Electric Bitters

Electric Bitters is a medicine suited for any season, but perhaps more generally needed, when the languid exhausted feeling prevails, when the liver is torpid and sluggish and the need of a tonic and alterative is felt. A prompt use of this medicine has often averted long and perhaps fatal bilious fevers. No medicine will act more surly in counteracting and freeing the system from the malarial poison. Headache, Indigestion Constipation, Dizziness yield to Electric Bitters. 50c. and $1 00 per bottle at McMonagle & Rogers Drug store.

THE CITY'S SCHOOLS.

Interesting Figures from the Report to the State Superintendent.

The annual report of our city schools to the State Superintendent of Public Instruction shows the whole number of pupils enrolled during the past year to have been 2,184; the average number in daily attendance was 1,568. The preceding year the number enrolled was 1,972, and the average attendance was 1,492.

The whole number of regents' certificates gained, last year, was 233; the number for the preceding year was 175.

The steady growth of the schools in numbers makes the question of increased accommodations a pressing one.

The sense of security against sudden emergencies from croup and bronchitis, felt by those who are provided with a bottle of Ayer's Cherry Pectoral, would be cheaply purchased at ten times the cost of that remedy. In all lung complaints, it is prompt to act and sure to cure.

EXCITING TIMES COMING!

Every one remembers the excitement that prevailed when Mills, the Cigar Man, started his watch scheme. Now comes the firemen's contest scheme which will be a favorite with all. Mills, the original tobacconist, will offer a beautiful Silver (gold lined) Trumpet to the fire company which, by votes of its friends, shall be declared the most popular. With every five cent purchase of goods at Mills' store a ticket will be given, which reads as follows, and explains itself.

FIREMEN'S CONTEST.

Commencing with Oct 7th. I shall give to every purchaser of 5c worth at my store, this ticket, which entitles you to one vote for the most popular fire company in Middletown. Write name of company you want to vote for here.

.....

With wholesale purchases and boxes of cigars one-half the regular number of tickets will be given. A committee will be appointed, and consist of one member from each company, to take charge of the contest, and see that no one stuffs the ballot box. The standing of the contestants will be announced every Saturday night, at 10 o'clock by the committee. "Mills, the hustler," is earning his title, and his generosity ought to be appreciated. From next week until the close of the contest let no one be shocked to see shoals of Middletown society girls buying cigarettes and chewing tobacco at Mills'. It is ballots they will be after, of course they would not use the cigarettes. 1t
